

A NOVEL PERACETIC ACID BASED CHEMISTRY

Alkaline Chemistry.
Easy to Apply Granule.
Performance Supportive.

Where Performance Begins: The Litter. **Start Strong. Finish Heavier.**

Every flock begins on litter—and what's in that litter impacts how they finish. High pathogen loads can lead to higher mortality, lower weights, and more stress on your operation. PeraGuard® PD2 litter intervention helps you take control from day one.

PERAGUARD® PD2

LITTER INTERVENTION

Build a Better Foundation for Every Flock

PeraGuard® PD2 is PAA based product—a novel chemistry in the litter intervention category.

PeraGuard® PD2 Performance Advantages:¹

- **Targets Harmful Pathogens**
Proven to reduce bacteria like *Salmonella*, *E. coli*, *Listeria*, *Staphylococcus*, *Streptococcus*, and *Pseudomonas* on hard surfaces^{1, 2}—creating a performance supportive environment for your flock.
- **Effective against viruses**, including Avian Influenza A virus, and Infectious Laryngotracheitis (ILT) virus on hard surfaces.²
- **Moisture-Activated Protection**
Activates with the moisture already in your barn and litter.
- **An Idiopathic Intervention**
When even the kitchen sink lacks resolution, try PeraGuard® PD2.
- **Alkaline Advantage**
While ammonia treatments go acidic, PeraGuard® PD2's alkaline formulation works synergistically with existing litter alkaline pH.
- **Easy to Apply Granules**
Use just like other granular litter amendments used for ammonia control.
- **Commercial Applicator Tested**

How can PeraGuard® PD2 help your operation?

Bottom Line Impact:¹

- **Mortality Reduction**
More birds to market. That's real money back in your pocket.
- **Reduced Feed Cost**
Improved feed conversion ratios and reduced feed costs.
- **Fewer Gram-Negative Bacteria**
Less *Salmonella*. Less *E. coli* on hard surfaces.²
More peace of mind.
- **Flexible Application**
Use 20–50 lbs per 1,000 sq ft, depending on your needs.

¹ All statements made are verified from studies performed in research settings and/or commercial farm settings.

² PeraGuard® PD2 is EPA-registered for control on hard surfaces for referenced organisms.

Field-Tested

Real results from real farms—because performance matters

In real-world trials, PeraGuard® PD2 has shown measurable improvements in bird performance metrics, including **mortality, bird weight, and feed conversion.**

Packaging Options

- 40 lb sacks
- 500 lb drum sacks
- 2,000 lb super sack
